Twinhead recommends Microsoft® Windows® XP Professional for Business.

DURABOOK 15D

- The latest Intel® Centrino™ mobile technology
 - Intel® Pentium® M processor 730 (1.6GHz)
 - Intel® 915GM chipset
 - Intel® Pro/Wireless 2915ABG (802.11a/b/g) network connection
- Microsoft® Windows® XP Home Edition or Professional Edition
- Intel® GMA 900 integrated in Core Logic Chip with 2D/3D video graphic accelerators

Once notebook buyers needed to craft a compromise between power, mobility and toughness.

The DURABOOK 15D delivers all three!

Powered by the new generation Intel® Pentium® M 730 (1.6GHz), FSB 533MHz CPU, the DURABOOK 15D brings new flexibility and performance to the mobile computing experience, delivering maximum productivity with minimum power consumption. Ready to accommodate up to two gigabytes of fast memory, this tough powerhouse is ready to run all major productivity and entertainment applications with grace and blazing speed. And whether you're plugging into a corporate LAN, going wireless in an airport waiting room or dialing up for access, the DURABOOK 15D has what it takes to keep you plugged in and in the know.

Yet this sleek, slim and stylish DURABOOK 15D is tough enough to survive and thrive in a real world populated by on-the-go travelers, careless kids, harried servers, rushed security screeners and careless baggage handlers, rugged enough to get your work done at rough-and-tumble job sites, on active factory floors and in less-than-safe laboratories as well as in airport lounges, on beaches and in restaurants or coffee shops.

DURABOOK 15B

- The latest Intel® Centrino™ mobile technology
 - Intel® Pentium® M processor 745 (1.8GHz)
 - Intel® 855PM chipset
 - Intel® Pro/Wireless 2200BG (802.11b/g) network connection
- Microsoft® Windows® XP Home Edition or Professional Edition
- ATI Mobility™ RADEON™ 9700 graphics with 128MB VRAM

When your workload is heavy, but your budget is light, the Twinhead DURABOOK 15B has you covered!

It's packed with the power to get the job done, an intelligent combination of what you need and what you can afford. With a Pentium® M processor for muscle and mobility the Twinhead DURABOOK 15B features unprecedented notebook graphic processing power - Hollywood feature-film quality realism without compromising performance - and a big, beautiful display that's a treat for the eyes.

Superb communications capabilities keep you in touch when you're out of the office and - with an available wireless LAN option - plugged in even when no plugs are available.

You have enough to worry about without worrying about your notebook. Sure, we'd all like to treat our notebook PCs with kid gloves, operate them in a clean, safe, temperate environment away from dangers - dust, dirt and spills - that can turn a delicate piece of IT equipment into an expensive paperweight. And with the Twinhead DURABOOK 15B, you don't have to worry: It's a DURABOOK, tough enough to go where you go and do what you do.

Twinhead is showcasing its full range state-of-the-art products during Computex 2005 at our headquarters at

**COMPUTEX
TAIPEI 2005**
